Questionnaire: Planning Your Outdoor Space

In order to create a custom design for your property, we welcome your input. We want to be sure your landscape lives up to its potential. It's important to think carefully about what you would like to accomplish. Think about what you find appealing about gardens in general. Consider both function and aesthetics. Below are a few questions that will help us to assess and focus on your project. If you have landscaping examples, or pictures from magazines/books or our online portfolio that you like, please have them available for our first meeting.

Things to Consider:

1. What specific areas or elements of your property would you like to focus on?

2. Which of these elements would you like to incorporate? (check all that apply)
